

Problem

Marketing

Services:

1. Fetching latest news about the services (Account, Audit, Tax) on Tuesday
2. Graphic Design
 - a. Input: Topic of choice (Automated by step 1)
 - b. Current tool of designer (Canva)
 - c. Follow style guide
 - d. Output: design specification for designer
3. Landing Page
 - a. Input: Graphic image file, instruction for landing.
 - b. Style consistency with graphic.
4. Scheduling (Recurring on every Wednesday)
 - a. Auto-resolve when conflicts of schedule happen
 - b. Conflict calendar -> automate move to another day without holiday or conflict
 - c. Confirmation email upon news subscription.
5. Gmail
 - a. Every Friday follow-up emails
 - b. Channels: email (Gmail)

Propose solution:

- Use connectors and MCP
- Form step specific agent instructions:
 - News researcher
 - Graphic designer
 - Web-designer/frontend developer
 - Email Scheduler

Tommy will choose the best topic for that day. Tommy sent it to GD (input details). GD picks up and design a graphic design, later designs a landing page (HTML), sends it out to Wednesday (publish). The website will allow you to register/subscribe for it. Lastly, a follow up email/classes on Friday.

Tommy notes/issues/problems:

1. Services: Account, Audit, Tax

- Each service should have it's own Graphic (Auto generated by Ai send to email tommy.dan@edge8.com for approval) (This is a headline saying what's New regards to the service (Account/audit/tax) for the week)
- Each Graphic should have its own landing page (HTML) to be approve by tommy by sending email to tommy.dan@edge8.com (The landing page will be the news of the week regards to the services)

-

6. Scheduling

- Once approved by tommy.dan@edge8.com, it should prompt scheduling to Google Calendar. Schedule at every Wednesday at 10am.
- And it should have a followup on every Friday at 10am if they need to know more information or 1-2-1 session

-
